

Course 1 Practice Test on Decimals

Add or Subtract.

1. $7.43 + 9.25$	2. $15.2 - 3.829$
3. $28.1 + 21.97$	4. $34.673 - 16.26$

Multiply.

5. 7.26×8	6. 12×0.68
7. 3.2×2.45	8. 0.006×0.32

9. How much will 2 bags of chips and a drink cost you when you have a coupon for 75 cents off the total price? (Put your answer in a sentence.)

Item	Price
Chips	\$1.29
Drink	\$0.89

Divide.

10. $11.76 \div .0014$	11. $11.79 \div 9$
12. $5.2 \div 0.13$	13. $9.68 \div 0.32$

14. Beatrice bought 12 sandwiches for \$61.08. Each sandwich was the same price. What was the price, in dollars, of each sandwich? (Put your answer in a sentence.)

15. An international long-distance phone call costs \$0.79 per minute. How much will a 32-minute call cost? (Put your answer in a sentence.)
