

MS WORD ASSIGNMENT PART 6

Works-Cited Page (Page 7)

Name the file: periodpart6workscitedfirstinitiallastname

In this assignment you will create a works cited page where you list each of the websites that you used while gathering your information. Do this on a blank Word Document.

At the top of the page you should include the title “Works Cited”. Do not use WordArt for this title. You will have three categories for this. They are Biography, Songs, and Pictures. Under each category, you will need to put your resource(s).

For each resource for your biography you should use www.easybib.com to create your MLA citation and then past the information.

For the resources you used for your songs and pictures, just copy and paste them onto the new word document.

This will be the last page of your document.

How to use easybib.

- 1)Once on the homepage, make sure “website” is highlighted.
- 2)Then copy and paste the url/website into the white box
- 3)Click on Cite it.
- 4)Click Continue
- 5)Scroll down almot to the bottom of the page and where it says “Display Url”, click on the circle so that it says yes.
- 6)Click on Create Citation
- 7)Copy and Paste the Citation on your Works Cited document under the appropriate category.
